Understand

What creative things would you like to do in your school?

Creative Schools Planning Framework

Vision

‘We see creativity as a skill that can be applied in many contexts & across all aspects of curricular & non-curricular teaching & learning by both students, staff & the rest of the school community & not something isolated to ‘artistic’ or ‘creative’ subjects. We would envisage that the arts & creativity would bring our school together as a community & that everyone’s experiences would be enriched’
