Overview of Spreacha Workshops

Spréacha Projects

Objectives:

- To expand the reach of the Spréacha shows into other artforms.
- To provide the opportunity for a class group to explore the message or theme of a particular show in more detail, and have ownership of Spréacha by creating an art piece as part of the festival.
- To create a child-centered art piece as a focal point during the festival.
- To connect, reconnect or show appreciation for a class/school with whom we've had a good relationship during the year, e.g. long time supporters of theatre, Spréacha and children's programme; regular attendees of events at Draíocht (particularly literature events) but who fall outside of our remit for the children's programme.

Spréacha Corridor Art
