# Instructions for assembling the Bunting
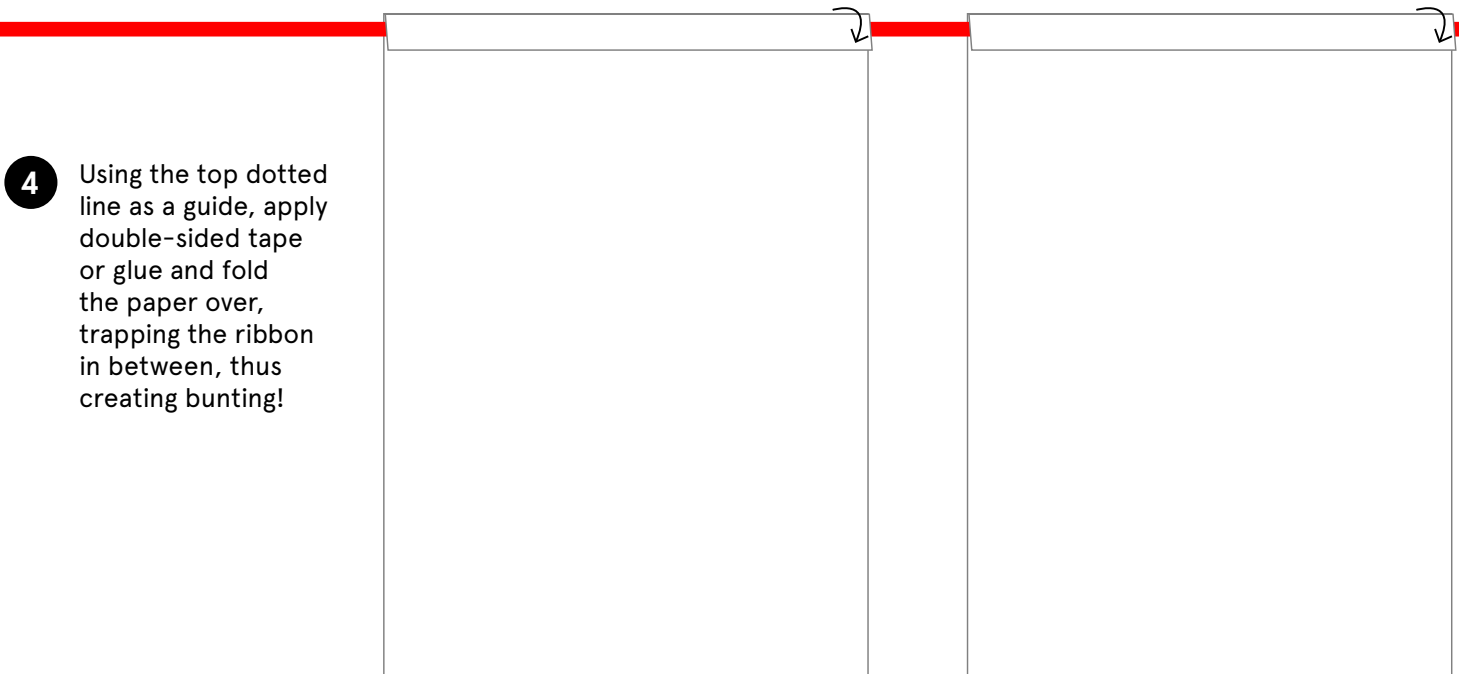

1

Print out as many A4 sheets of bunting as you need for your space.

A4

2

Fold the A4 sheet in half, along the dotted line. You can use double-sided tape or glue along sides **a** and **b**, to make a double-sided print. Repeat this step on all your print outs.

← **a**

A5

↑ **b**

3 Line up your A5 bunting sheets in a line, with approximately equal spacing between each. Run a thin ribbon/ thread / twine along the top line.

4 Using the top dotted line as a guide, apply double-sided tape or glue and fold the paper over, trapping the ribbon in between, thus creating bunting!
